Many doctors, nurse practitioners, or physician assistants don't know. These events are of 'special interest' because although they are known to occur coincidentally in the population, they can be associated with one or more of the COVID-19 vaccine platforms. I suggest that instead of filling the VAERS form directly that you do it first on a word processing software like WPS Office or Microsoft Word at first and then transfer it to VAERS because VAERS does not save your data until submitted. Feel free to share and like. Don't Get Sick! Knowledge about Covid-19 is rapidly evolving. Depending on the nature of the event, rapid communication by the trial sponsor to other parties may also be needed (e.g., regulators). Anything on this list with anti or auto means autoimmune disease. Get clear, simple definitions from the British, American, and Business dictionaries with just one search! Hear the words spoken in British and American English Thousands of real examples show how words are used Guidewords take you to the exact meaning you are looking for The Smart Vocabulary helps you expand your vocabulary with related words and phrases Ideal for intermediate to advanced learners of English (CEFR levels A2-C2) Based on the Cambridge English Corpus — a database of over 2 billion words Tell them that Pfizer is watching out for those complications. The World Health Organization is also keeping an eye on the AESIS. It lists the Adverse Events of Special Interest documented after the Pfizer shot roll-out. I wrote about it at: Pfizer BNT162b2 adverse events of special interest as of February 2021 after the roll-out Truth heals. Centers for Medicare & Medicaid Services Loading PreviewSorry, preview is currently unavailable. It can be severe or non-serious, but it can lead to a serious medical condition. Again, report the diagnosis like Myocardial infarction instead of chest pain, Pulmonary Embolism instead of difficulty breathing, or Ankylosing Spondylitis instead of back pain. The diagnosis may be months or years after the shots. It is essential to estimate the background rates for these events and set up specific surveillance and training \*\* Adverse events following COVID-19 immunization (AEFIS) \*\*\*\* AESIs identified following COVID-19 immunization. (Moderna, Johnson, and Johnson, Sputnik, AstraZeneca, Coronavac, etc) Below is from their document COVID-19 VACCINES: SAFETY SURVEILLANCE MANUAL, MONITORING AND RESPONDING TO ADVERSE EVENTS OF SPECIAL INTEREST (AESIS). That means a doctor may not have seen that condition before or might have forgotten about them from medical school. Loading PreviewSorry, preview is currently unavailable. I alphabetized them and put them in a numerical list. Many will not get the correct diagnosis, especially the elderly, because the casualties will be blamed on pre-existing medical problems like coronary artery disease and diabetes. It's about the Pfizer Adverse Events of Special Interest. You can download the paper by clicking the button above. Here is my YouTube video on this subject. Background rates provide information on the incidence of such events in the community \*\* Adverse events of special interest (AESIS) for a community defined prior to COVID-19 vaccine introduction. More than 95% of the adverse events listed are life-changing. The site is secure. In addition to following the requirements for AEFI management, there may be special requirements defined for AESIs, including investigation, follow-up, and causality assessment activities. The diagnoses on the list do not mean they will happen with the COVID-19 shots, but anyone who got "vaccinated" and later is diagnosed with any of the illnesses below should be reported to Pfizer or the VAERS. After reading and putting hypertext links, I noticed that I have not encountered some of the diseases due to rarity. Addendum April 5, 2022: Pfizer released the document, 5.3.6 CUMULATIVE ANALYSIS OF POST-AUTHORIZATION ADVERSE EVENT REPORTS OF PF-07302048 (BNT162B2) RECEIVED THROUGH 28-FEB-2021 on April 1, 2022. Many of the conditions below are rare. Such an event may require further investigation in order to characterize and understand it. Lies kill. Skip to main content The .gov means it's official. The Council for International Organizations of Medical Sciences (CIOMS) defines Adverse Event of Special Interest as, An adverse event of special interest (serious or non-serious) is one of scientific and medical concern specific to the sponsor's product or programme, for which ongoing monitoring and rapid communication by the investigator to the sponsor may be appropriate. AESI monitoring determines if there is a higher incidence of specific diseases in people who had the COVID shots. That is if they do their job. It's a work in progress but I aim to get better. If you had the Pfizer shot and you feel achy anywhere in your body since then, it should be reported. (for the bad) If you are lucky enough to have a diagnosis from your doctors and they say it is not related to the shot, show this list to them. And that is why Pfizer has included a list of Adverse Events of Special Interest in their document 5.3.6 CUMULATIVE ANALYSIS OF POST-AUTHORIZATION ADVERSE EVENT REPORTS OF PF-07302048 (BNT162B2) RECEIVED THROUGH 28-FEB-2021 that you can download from Public Health and Medical Professionals for Transparency Documents. By Arne Müseler / www.arne-mueseler.com, CC BY-SA 3.0 de The list below many conditions that can lead to sudden death. If not, these shots will be included in the yearly vaccination schedule for everyone. I didn't until I read the whole list. How to report to VAERS When you report, the following information from the table below is needed. That is why the VAERS report will undoubtedly be underreported. Source: World Health Organization All events in a community that cause morbidity. If they get enough reports, it may not be rare anymore. If you find value in the articles, please consider donating to show your support. The original Pfizer appendix is a wall of words with the diagnoses separated by semi-colons. Stay current by subscribing. Rare also means there may be no standardized treatment for them. Before sharing sensitive information, make sure you're on a federal government site. If the incidence is higher in people who had the shots, they should stop using these "vaccines". The list also includes many rare genetic diseases. According to the CIOMS Working Group VII Such events should be described in protocols or protocol amendments, and instruction provided for investigators as to how and when they should be reported to the sponsor. I put links on some of the diseases. Here is my first YouTube video. LIST OF ADVERSE EVENTS OF SPECIAL INTEREST (1,289 Total) A B C D E F G H I Interesting read about Wim Hof Method and the Immune system. Secrets of the Ice Man: Voluntary control of adrenaline and the effect on the immune system J K L M N Neonates refer to newborns less than one-month-old O P Plenty of lung (pulmonary) complications, unusual cases of pneumonia you only see in immune-compromised people, and liver - (portal) complications here Q Quarantine R S T U Uthoff's phenomenon - a transient worsening of neurological function lasting less than 24 hours that can occur in multiple sclerosis patients due to increases in core body temperature. Ulcerative keratitis Ultrasound liver abnormal Umbilical cord thrombosis Uncinate fits Undifferentiated connective tissue disease Upper airway obstruction Urine bilirubin increased Urobilinogen urine decreased Urobilinogen urine increased Urticaria Urticaria popular Urticarial vasculitis Uterine rupture - happens in pregnancy and childbirth Uveitis Vaccination site thrombosis Vaccination site vasculitis Vagus nerve paralysis Varicella - chickenpox Varicella keratitis Varicella post-vaccine Varicella zoster gastritis Varicella-zoster esophagitis Varicella-zoster pneumonia Varicella-zoster sepsis Varicella-zoster virus infection Vasa praevia Vascular graft thrombosis Vascular pseudoaneurysm thrombosis Vascular purpura Vascular stent thrombosis Vasculitic rash Vasculitic ulcer Vasculitis Vasculitis gastrointestinal Vasculitis necrotizing Vena cava embolism Vena cava thrombosis Venous intravasation Venous recanalisation Venous thrombosis Venous thrombosis in pregnancy Venous thrombosis limb Venous thrombosis neonatal Vertebral artery thrombosis Vessel puncture site thrombosis Visceral venous thrombosis (Sixth cranial) Vith nerve paralysis Vith nerve paresis Vitiligo Vocal cord paralysis Vocal cord paresis Vogt-Koyanagi-Harada disease W X XIth nerve (Eleventh cranial nerve) paralysis X-ray hepatobiliary abnormal Y Young's syndrome Z Zika virus-associated Guillain Barre syndrome Addendum April 14, 2022 - LIST OF ADVERSE EVENTS OF SPECIAL INTEREST - Downloadable PDF file with hyperlinks. Going into the list, A has the most possible adverse events due to autoimmune antibodies. Adverse Event of Special Interest is an event for a particular product that should be monitored by a drug or vaccine manufacturing company. This list may be from Pfizer, but ALL WHO HAD THE COVID SHOTS WHATEVER THE MANUFACTURER SHOULD REPORT THEIR DIAGNOSIS. I have to stress again that anything that happens to you if you have been vaccinated with any of the COVID shots, that you file a report even if the condition is not listed here. The https:// ensures that you are connecting to the official website and that any information you provide is encrypted and transmitted securely. Federal government websites often end in .gov or .mil. You can still report them. Related: References: © 2018 - 2022 Asclepiades Medicine, L.L.C. All Rights Reserved DrJesseSantiano.com does not provide medical advice, diagnosis, or treatment As an Amazon Associate, I earn from qualifying purchases. It's my first attempt at doing videos but I aim to get better with time. In another Pfizer report, they list symptoms like pain on the injection site, fever, headache other things that do not seem dangerous but those may be amyloid formation on the injection site, sepsis, or cerebral vein thrombosis.
